

Instructions for the tutor to read

Ensure students are sitting quietly. Be strict as the instructions are easy; they just require careful listening. Read it once only unless students are completely lost! It should all be a bit of fun anyway.

Instructions 1

Read the instructions to the students. Keep going, clearly and quickly.

a) Circle the animal. Do not write any letters.

ov _____

fr _____

c _____

b _____

b) Write your name on the line.

1, 2, 3, 4, _____, 10

c) Do not answer the question.

What animal barks? _____

d) Answer each addition problem. Leave the subtraction problems blank.

3	2	3	5	6	3
<u>- 1</u>	<u>+ 2</u>	<u>- 2</u>	<u>- 2</u>	<u>- 3</u>	<u>+ 1</u>

e) Circle each type of fruit. Ignore the line between cherry and red.

cherry

grey

elephant

red

banana

green

orange

orange

green bean

yellow

Instructions 2

- 1) If there is a star circle it. Circle the moon if it is next to the star. Underline both the star and the moon unless they are shapes.
- 2) Circle the rectangle if it is between the two hearts. Cross out each shape unless any of them are ovals.
- 3) If an apple is a fruit circle it. If a car has wings circle it. If a shoe can be used for walking, circle it. Underline each picture unless it has a windshield.
- 4) Put an X on the bridge unless "bridge" starts with "b." Put an X on the cube unless it has 2 sides. Circle the 3 unless it is a number. Draw a box around the bird if it has wings.
- 5) Circle the country if it is next to the stop sign. Unless the ruler is between a stop sign and a calendar, cross it out. If the country is first, then underline the last picture.
